Double-Up Draw Poker

A Video Amusement Game

Registered, Copywrited, Patent Pending Omega Products 1992

The Game

Double Up gives players the skills and thrills of draw poker with the exciting double up feature. A Player can discard up to five cards per hand. Then comes the option of playing the hand for double or nothing with "Double Up." A new deck is used for every game.

Strategy When the player has a winning hand he has two choices. He may keep the win by pressing the "Take" button. This causes the skill points won to be transferred to replay numbers. Or the player may decide to try the Double Up feature. Instructions appear on the screen when the "Double" button is pressed. It asks the player to press either the button marked "Big" or "Small." If the next card to appear is above eight "Big" wins. If it's smaller then eight, "Small" wins. Winning at Double Up doubles the player's skill points.
